

Code Institute Employment Survey Q4, 2022

127 graduates participated in this survey

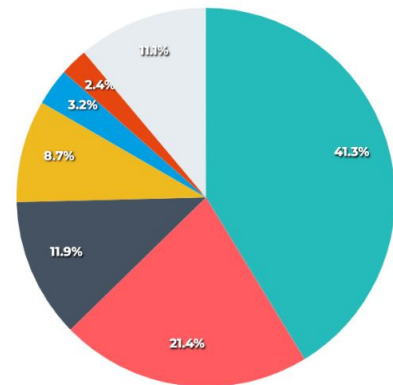

Code Institute is committed to your success. We have invested a further £1million in our programme to offer even more enhanced career coaching and learning support - so our students can get ahead, stay relevant and earn more. The result of that investment has been astounding, and students who have used our Career Services Team have been met by great success.

Our Graduates are employed quicker – employment rate timeline

Our graduates get better jobs – most frequent job titles

- Software Developer
